Colour

Colour can bring a haircut to life, enhancing shapes and adding dimensions to the look.

Individually trained by Neil Barton Global Award winning colourist and Ambassador for Goldwell Hair Care, your highly skilled Colourist will find the perfect colours to suit your eyes, skin tone and style, during an in-depth Consultation. **We request that all new colour clients have a skin test 48 hours prior to your colour appointment.** Please ask our Front of House team to book.

Please note that these prices do not include the price of a Blow-dry. Add £15 for technical blow-dry or the price of a cut

Perm from	£50

Treatments

therapy treatment

rescue and repair for damaged hair

WHAT IT DOES

Penetrates deeply to reconstruct damaged hair. Strengthens and moisturises hair after just one use and restores luster.

deep conditioner

conditioning and taming for coarse hair

WHAT IT DOES

Tames and smoothes cuticle. Increases pliability of coarse or unruly hair. Hair will be more responsive to heat styling. This treatment deeply conditions while caring and protecting coloured hair

colorglow [IQ]

Colour Finish Serums are an in-salon post colour treatment that locks in colour for ultra long lasting protection and colour retention.

Colour Menu

Balayage

Balayage is a hair colouring technique which is designed to create very natural looking highlights which grow out without developing noticeable and obvious roots. It is the latest colour trend with all the celebs and the fashion world and is also known as Two-Tone or Dip Dye.

Partial Foils

A great introduction to colour. Placing weaves and flecks of colour through the front hairline and parting of your hair. Great for enhancing your cut and lifting your skin tone. Why not liven up or break-up your old block colour for a more natural multi-tonal effect?

Half Head Foils

Whether light or dark, sun kissed or bronzed, we can weave colours through your hair to give you beautiful multi-tonal, natural, or striking effects. Working colour from the front hairline back to below the crown. Perfect for short, mid length and long hair.

Full Head Foils

The same effect as with a half head, but colouring the hair throughout the back of the head. Ideal if you like to wear your hair up and don't like to see a two-tone effect, also perfect colour for shorter hair styles.

Full Head Colour

Fiery Reds and auburns to sumptuous chocolate rich browns. We have the shade for you. Permanent colour, with 100% white coverage and the most amazing natural sheen.

Re-touch

Keep your re-growth (full head colour) at bay... A few weeks have gone by and your colour still looks brilliant apart from the re-growth. Time to re-touch those roots.

Re-touch and Refresh

Colour starting to feel a little tired and jaded? Lets spruce it up by applying permanent colour to the re-growth (cover any white), Then infuse the ends with fresh colour and mirror like shine using a semi gloss. Feeling refreshed?

Re-touch and Reflects

Colour feeling a little faded with no shine. Lets liven it up by adding permanent colour to the regrowth (cover any white). Then infuse the ends with various different tones using permanent colour, gloss colour and Elumen colour to create a unique multi-tonal effect with shimmering reflects that will dazzle under light leaving your hair feeling noticeably healthy and vibrant yet natural.
